

We supply all the materials, but are happy to use your materials if you prefer. We offer beginner and beginner/intermediate level classes. If you have another project in mind that we have not listed please contact us so we can discuss the details.

In this remote teaching format we do not teach group lessons for machine sewing with children under the age of 10. And for children 10 or older they must have used a sewing machine before and know the basics. We will teach a 1 on 1 class to absolute beginners if an adult is present during the first lesson. We do ask that an adult is near by for all children under 12 just in case they are needed.

For all sewing lessons for children, we ask that the child has some minimal experience with sewing, even if it is just the basic running stitch.

BEGINNER LESSON PROJECT OPTIONS

These projects are for children or adults who haven't used a sewing machine, or who prefer these projects to the ones offered in the next level.

The sewing machine projects work best with ages 8 & up, but can be simplified for age 7 if necessary.

Some of these projects are hand sewing projects or have the option to be hand sewn.

The hand sewn projects can be for ages 6 and up.

The beginner projects are as follows. See following pages for details on each project.

SCRUNCHIE

SOCK BUNNY

PIN CUSHION

HEADBANDS

POCKET PILLOW

PLUSHY

BEGINNER/INTERMEDIATE LESSON PROJECT OPTIONS

These projects work best with ages 8 and up, and who have used a sewing machine prior to this lesson. If they have not sewn before we ask that they are at least 12 years of age.

The beginner/intermediate projects are as follows.

See following pages for details on each project.
